

## **Assurity Software Install Instructions**

- **Double Click the FSassurity Icon**
- **When prompted use the password: igroup**
- **Finish the installation wizard**

### **ATTENTION: Windows Vista Users Only**

- **Click your START Button**
- **Select "COMPUTER"**
- **Double-click on "C-DRIVE"**
- **Select "PROGRAM FILES"**
- **Right-click on the "FORESIGHT" Folder**
- **Choose "PROPERTIES"**
- **Select the "SECURITIES" tab, then "USERS", then "EDIT"**
- **Change option to "FULL CONTROL"**
- **Click "APPLY", then "OK"**

**When these steps are completed, right-click the big "A" ForeSight icon and select "RUN AS ADMINISTRATOR". Normally, you should have to complete this process only once. However, in some instances, you may need to "RUN AS ADMINISTRATOR" each time. To do this you must RIGHT-CLICK on the icon.**

### **New User Notes:**

- \* **Choose your own illustration defaults: Click Tools > Options, then select the "Illustration Defaults" tab.**
- \* **Use the Product button to change the Product (Quote - DI or Ledger - Life and Annuity) and the Policyowner State.**
